# Welcome!

## *Who's in the database?*

The Kensington Youth-Serving Organizations Database includes organizations who completed an information-gathering survey during January and February of 2026. The electronic survey was sent to organizations identified in the first edition of this Database in 2023, as well as to local libraries, school counselors, and nonprofit leaders in an attempt to identify as many organizations as possible.

**Access the interactive map of the Database! [CLICK HERE](#)**

# Things to know:

- The database is organized alphabetically.
- If you're on a computer, use the “*Find*” function to locate a specific organization or type of service (*command + F* for Apple, *control + F* for Windows).
- Use the interactive map to locate organizations near you, and this document to find additional information.
- This database is not comprehensive, meaning there are additional organizations in the area that did not complete the survey.
- This information is not being actively monitored and updated; please check directly with organizations about scheduling and program details.

This document was created by Fab Youth Philly Social Work Intern, Erica Fenton, under the supervision of Rebecca Fabiano and Reggie Jones in early 2026. It builds on the first edition of the Database, developed in 2022 by Social Work Interns Cara Lomaro and Rebecca Crosby.
